

THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 85.

THE BLAIRMORE ENTERPRISE THURSDAY, AUGUST 27, 1925.

SEVENTH ANNUM

POST OFFICE TO MOVE INTO NEW QUARTERS

We learn that by September the first, the Blairmore postoffice will have moved into new and more commodious quarters. The King George Cafe, occupying premises on the east side of the F. M. Thompson Co. building on Victoria Street, will transfer their equipment to another building and this large room will be renovated, rearranged and fitted as postoffice quarters. This will be quite in keeping with the present size of the town and the needs of the change is being received with satisfaction.

The old postoffice quarters will be leased by the Blairmore School District as secretary-treasurer's office. For the past two years the secretary-treasurer has been quartered in a small room in the Orphanus theatre building. The new office will be occupied by September 30th, when the present lease expires.

According to latest advice, cheques to depositors of the Home Bank, for 35 per cent of accounts of less than \$500 will be coming through in a few days.

CONKLIN & GARRETT SHOWS COMING

Conklin & Garrett's big All-Canada Show will appear in Blairmore for six full days of next week, including eight high-class and clean shows, a ten-thousand-dollar merry-go-round, gigantic ferris wheel and monster chair-plane.

The show will locate across the river from Fifth Avenue.

BELLEVUE FLOWER SHOW MONDAY, SEPTEMBER 7th

Bellevue Flower Show and Sports will be held this year on Monday, September 7th (Labor Day) under auspices of the Bellevue and District Horticultural and Industrial Club.

Judging by the beautiful gardens in the neighborhood of Bellevue and Hillcrest, and the unusual amount of interest being manifested, not only by the citizens of Bellevue, but through out the neighboring towns, this year's show and sports will surpass any previous effort.

Programmes have been issued by The Enterprise and will be distributed on the grounds on that day.

BLAIRMORE SCHOOL BOARD STILL FILLING VACANCIES

A special meeting of the Blairmore Board of School Trustees was held on Monday night, Chairman Duff, members Beebe, Wheatley and Chappell, and Secretary Gresham being present.

The purpose of the meeting was to consider the advisability of securing new and larger quarters for the secretary-treasurer and to make a few more choices to fill vacancies on the new teaching staff.

A proposition was placed before the board, that the premises being vacated by the postoffice, at the rear and west of the F. M. Thompson Co. building, would be available about September 1st, at same rental as being paid by the postoffice. The rooms are considerably larger and more conveniently located than the present office of the secretary.

After some consideration, it was moved by Mr. Beebe that the Board rent these premises for a period of one year at a rental of \$30 per month, with option of renewal of lease at similar terms. Lease to run from October the 1st. Carried.

It was found that there were still positions on the Board's new staff to fill, and the batch of applications was again culled, with the result of a choice of Mr. Eric Muncester, son of Rev. (Capt.) W. H. Muncester, former pastor of the Presbyterian church at Blairmore, for the position of vice-principal; and Miss B. C. Backman, of Vancouver, and Miss Gladys McK. Scott, of Cobble Hill, B. C., as primary and grade teachers.

Mr. Muncester has been filling a position at Redcliff, a blacklisted district, and signified his willingness to take a position with Blairmore, also blacklisted. Mr. Muncester requires a salary of \$1250, and would take the principal position at that salary if offered. His recommendations, qualifications, etc., were read to the board, and upon motion by Mr. Chappell that the application of Mr. Muncester be accepted, Mr. Wheatley remarked: "Very good qualifications for a man

who will undertake to act as a teacher." Masters Beebe and Chappell protested against the term "teacher" being used in this connection and Mr. Chappell remarked that if Mr. Muncester was a teacher in Alberta were so. Motion was put to a vote, Chappell and Beebe for, Mr. Wheatley asking to be recorded as voting against the motion.

Mr. Wheatley asked what other appointments had been made and elicited the following:

Principal—Mr. Norman McPherson, Milk River, Alberta.

Grade Teachers—Miss M. I. Hall, Olds; Miss E. V. McElroy, Medicine Hat; Miss R. Mowry, Inverly; Miss M. A. Hyson, Calgary; Miss M. Mitchell, Cardston; Miss H. C. Fitzgerald, Big Valley; Miss Dorothy A. Cox, Pincher Creek; Miss Grace Lyndon, Lyndon; Mr. John M. Rothway, Macleod. These, together with Mr. Muncester and Miss Scott, making a staff of twelve.

The Board decided to operate with twelve teachers, instead of the regular thirteen, which seems rather unfair, both to the teachers and pupils, knowing as everyone does that the rooms last year were far too crowded to ensure good results.

Mr. Wheatley asked as to whether the new appointments had been made aware of the conditions here, and was informed that in all cases where appointments were being made the following information was attached:

"Am directed by the Board to advise that vacancies on our staff were caused by refusal of the old staff to negotiate agreements directly with the Board. Signed by the Secretary-Treasurer."

In connection with the appointment of primary teacher, the Board selected Miss E. M. Ogden, of Cardston, as second choice.

In view of the fact that notices to quit sent out to the members of the staff early in July, had not reached the parties to whom directed until as late as August the 10th to 22nd, and further that according to advice from the department of Education that 30 days should elapse following receipt of such notices before school could be reopened with a new staff, Mr. Chappell moved that the Board apply to the department for permission to stay the opening of school to September the 14th, to permit the board to carry out the instructions contained in departmental letter of July 16th. Carried.

Permission had already been granted to open on the 8th September, in spite of the fact that the Act specifically states that "school must reopen not later than September 1st." All other village and town district schools are opening this year on Tuesday, September 1st, and ratepayers will have an opportunity of experiencing some inconveniences and injustices during September, due to bungling on the part of the Board.

Mr. Wheatley asked if any lawyers had been employed in connection with this fiasco and was informed that a lawyer at Pincher Creek was engaged to serve notice on one of the old teaching staff. It was also practically admitted that legal advice had been sought by the Board locally, to be paid for by the ratepayers.

SCOTTER-COATES

A quiet wedding took place at St. John's church, Pincher Creek, on Tuesday, August 18th, when Mr. Walter L. Scotter, of Cardston, was united in marriage to Irene Evelyn, youngest daughter of Mr. and Mrs. Richard Costen, of Cowley.

The bride's father gave her in marriage. Mrs. E. T. Duffield, of Springridge, attended the bride as matron of honor, while Mr. Duffield acted as groomsmen.

Quite a number of men have left here during the week for the prairies, to assist in harvesting.

LOCAL AUTOIST VICTIM OF CROSSING ACCIDENT

An accident that came very near having fatal results occurred on Thursday morning last at a railway crossing just east of Hosmer, B.C., when a coupe, driven by Mr. W. I. Huston, storekeeper for the West Canadian Collieries, Blairmore, was hit by a passing freight train and demolished.

Mr. Huston was accompanied by his sister, Mrs. Brown, wife of Edward Wallace Brown, former provincial treasurer of Manitoba, and returning from a trip as far west as Cranbrook.

The car was reduced to scrap and the occupants were literally buried beneath the mass of wreckage.

Both were picked up and after first aid had been administered, were taken by the morning passenger train, about an hour later, to Fernie, where they are being cared for in hospital.

Upon examination, Mrs. Brown was found to have sustained a fracture of the right leg just below the knee, as well as other minor injuries. Mr. Huston is suffering from severe bruises about the body and a scar

over the forehead.

For a few days very little hope was entertained for the recovery of Mrs. Brown, but at the present all danger has passed and she is reported well on the road to recovery.

It is expected that Mr. Brown will accompany her husband back to Winnipeg some time next week by special coach, and in all likelihood her brother will accompany them.

Mr. Brown arrived at Fernie from Winnipeg on Saturday morning.

COLEMAN'S TWO-DAY BIG CARNIVAL

Coleman is staging a big carnival on Friday and Saturday of next week, which promises to be a huge success.

In spite of the feelings expressed by some narrow-minded individual through the columns of the Coleman paper, we have not heard anyone utter a word against Coleman or their carnival. On the contrary, most

everyone has already planned to return to Coleman the favors accorded Blairmore in the recent carnival here.

WORLD HAPPENINGS
BRIEFLY TOLD

Cardiff, Wales, is advertising for tenders for 600-wooden houses and expects to get them from Scandinavia.

An expedition has left here to explore the eastern shores of the North Arctic Ocean, proceeding later to Cape Hope, Alaska.

Lieut. Col. O. P. Meredith has taken over his duties as secretary of the League of Nations Society of Canada, succeeding H. G. Richardson, recently resigned.

The delegates of the Empire Press Union, enroute to the Imperial Press Conference to be held in Australia, were given a civic welcome at Auckland, N.Z.

Professor Henri Louis Bergson, France, has received an appointment to the committee of international intellectual co-operation of the League of Nations, on account of ill-health.

The Soviet government, disaffected with some of its foreign embassies and legations, is planning a sort of travelling cheta which will travel over the world and check up on the diplomats.

It has been announced that all the provinces of the Dominion would be represented in the livestock exhibits at the Royal Winter Fair in Toronto. It was also stated that "Columbia" would send an exhibit of fish.

The British Columbia Legislature will assemble for its annual session on October 26. A fall session is preferred by a majority of members of the house to a spring sitting, since an East coast winter has been the year.

Senator Webster has been in England making arrangements for the shipment of supplies of Welsh coal to Canada. In case of a coal miners' strike in the United States, the Welsh business will profit very materially by the Canadian trade.

The probe conducted by chief inspector of prisons A. L. McPherson, into the food served to prisoners in the jails and institutions of Ontario has revealed that there is no general objection to the meals and supper described by the regulations.

Effects Great Saving

New Invention Saves Oil Company 50,000,000 Gallons of Gasoline a Year

"Breathing losses" of gasoline, estimated at 50,000,000 gallons a year by the bureau of mines, are being rapidly cut down by "breathing bags" developed for gasoline tanks by the Standard Oil Company of Indiana, according to a statement made public by the American Chemical Society.

"Breathing losses" are the evaporation of gasoline in tanks due to the sun's heat. This must be allowed to escape from the tank through a vent, otherwise the pressure would build up and destroy the tank.

The Standard Oil invention consists of a balloon which captures the escaping gas during the day and gives it back to the tank at night, so that the same gas is breathed over and over again without loss. The patent was worked out by Robert H. Wilson, H. W. Atwell, E. P. Brown and E. W. Chenckoff, of the Standard Oil Company of Indiana.

King Presents Colors

To Welsh Guards

These Bear Record of War History of Regiment

New colors were recently presented to the Welsh Guards. For the ten years since the formation of the regiment the Welsh Guards have carried colors on which no name of a battle has been emblazoned, but at a picturesque service at Windsor Castle, the King presented them with new colors that are a record of their glorious war history. The King said: "Ten years ago, when your regiment was raised, I presented its first colors at Buckingham Palace. Shortly after that period the regiment was called upon to fight for its country, and today its noble deeds in the Great War are inscribed upon your colors."

Good Fur Catch

The first batch of last winter's fur brought from the Far North by the steamer "Albatross," from Alaska, has arrived at Edmonton and is valued at approximately \$100,000. Good catches of furs were reported throughout the north.

Walking machines, which can produce in a few hours the amount of wear on shoes that would actually take place in six months of use, are employed for testing the quality of shoes.

A questionnaire recently issued in England shows that religious books stand next to fiction in favor with the reading public.

Wants To Establish
Own Medical Register

Irish Free State Has Sound Deal
Knelt of Profession

The death knell of the medical profession in the Irish Free State has been sounded, in the opinion of many doctors, by an announcement of the government's intention to establish a separate and independent medical register and cut loose from the British General Medical Council, by which the medical faculty of Ireland hitherto has been controlled. The general result of the decision, which is to become effective next February, will be that doctors qualifying in the Free State will be unable to practice in Great Britain or Northern Ireland, while physicians from those places will be barred from Southern Ireland.

The government's decision, however, must be ratified by the Irish Parliament, and medical men, it is stated, will seek to bring "majorities" against the proposal both in the senate and Dail Eireann.

President Cosgrave had issued an explanatory statement, seeking to allay the fears of those opposing the bill. Admitting there would be temporary disadvantages from the arrangement, he says, the government does not expect any serious reactions.

"It is incompatible with our constitutional status," he adds, "that an important profession having its centre of gravity and disciplinary headquarters in another country."

Reaches Top Record

58,000 Auto Licenses Issued in Saskatchewan This Year

Up to Aug. 31, 58,000 private auto licenses have been issued in Saskatchewan, according to report of F. W. Kerr, provincial license inspector. This is an increase of approximately 4,000 over the number issued in 1934. Truck licenses issued this year to date number 5,000. Mr. Kerr estimated that the license and dealer license issued last year would total approximately 1,500 each.

Transferring of licenses from one car to another is another matter, which is a considerable trouble, he said. In changing cars, the owners must secure a transfer of license from the department. The mere transfer of the license plates from one car to another is not sufficient. Persons who do not see to the proper transfer of the license are actually driving the new car without a license. Mr. Kerr pointed out:

"Many people under a false impression as to the issue of half-price licenses, Mr. Kerr said. These are not issued on and after July 1, but any person purchasing a car after October 1 may secure a license at half price, but must have an affidavit that the car had not been used in the province prior to that date."

Find Moscow Very Dull

Foreign Envoys Do Not Have Much to Say

To relieve the tedium of life among the foreign diplomats and newspaper correspondents, the Moscow Government has adopted the expedient of giving free theatrical entertainments once a month. Early in June a distinguished gathering of ambassadors, consuls and Soviet commissars were the guests of the Bolshoi Government at a concert given at the State Opera House, which was featured by ballet dances, operatic solos and vocal solos by Bolshoi's Russian best artists. Moscow had not seen so many fine theatrical entertainments since the days of the Czar. The flags of all nations were seen, the French tricolor being especially conspicuous.

It was believed the arrival of Jean Perbethe, the new French ambassador, would relieve the dullness that pervades the foreign missions, but the hopes of those who sought greater social activity and gaiety have disappeared. The French ambassador and his wife live modestly at the former house of the Nansen Relief Mission, and already have adopted the quiet, unobtrusive social customs of their colleagues in the diplomatic missions.

Had Learned To Be Brief

A member of the Scottish General Assembly, who ridged himself in fascinating brevity to the young mind, is telling a good story about himself. His son, who has returned to finish his student term at an English school, started, if not gratified, him by a wire as follows: "S.O.S. & S.D., R.S.V.P."

"I had no further distinguished myself in reply to an anxious letter to me, his last examination. 'Hymn 245, verse 5, last two lines,' which the anxious parent found to convey, 'Son, vanquished, labor ended, Jordan passed.'—Exchange."

A good reputation is sometimes useful as a parachute to the man who rises rapidly in the world.

There are more than 10,000,000 people in the world.

Is Comparatively Young Man
Doctor Gyo Who Made Discovery In Connection With Cancer Germ Only Forty

Dr. William H. Gyo, whose researches and discoveries in connection with the cancer germ have attracted world-wide attention has only recently arrived at his fortieth birthday. Despite his comparatively young age, Dr. Gyo has already made several valuable contributions to medical science. Some years ago he made a noteworthy discovery in diseases of the nervous system and a little later came into notice. His researches into the poisonous effects of various kinds of dust. The most of Dr. Gyo's work has been done in connection with the National Institute of Medical Research, with which he has been connected for several years. He is the son of an English railway laborer, and he himself worked as a railway porter to earn money for his education at the University of Edinburgh. During the war he served with the British Medical Corps in France and Italy.

The Lure of the Undiscovered
Many Of World's Secrets Are Yet To Be Disclosed

Lincoln Ellsworth is deservedly honored in Norway as a brave man, a real explorer and the patron whose financial gifts made the Amundsen expeditions possible. It is the latter role that may drive to inspire other rich men. There are many of the world's secrets yet to be solved. The Prince of Monaco used to study the ocean, and his work in a way continued by the wealthy Americans who have contributed to William Beebe's expeditions. Western and Central Asia, much of Africa and South America, and both polar caps, provide fine hunting grounds for anyone who wants to find out what's what and has funds enough to permit him to do so.—Hartford Sun.

Will Make Another Trial
Amundsen Plans New Polar Expedition For Next Summer

The Arctic, Arctic, Oslo, Norway, states Captain Amundsen, since his arrival home from his recently attempted flight to the North Pole, has been preparing a new aeroplane expedition for next summer. By September over the Pole and into the Arctic regions to Alaska. The newspaper states financial backing has been assured and the expedition will include Lincoln Ellsworth, who was with Amundsen's party this summer.

Made Productive By Irrigation
Situated in the centre of a district which has changed from a comparatively barren cattle ranging country to a productive fruit raising area by irrigation. The area, between the towns of the nineteenth annual convention of the Western Canada Irrigation Association. Delegates from British Columbia, Alberta and Saskatchewan, as well as representatives of the railways, governments, etc., were in attendance.

Is Entitled To Crow's Nest Tariff
Calgary Transportation Experts Say Rates Should Apply to Peace River

That the Peace River is entitled to the benefit of the Crow's Nest rates on grain and flour, without further reduction by the government, is the opinion of William Jones, local transportation expert, and chairman of the transportation committee of the Calgary board of trade.

This opinion puts the present situation in the north in a new light, as the general impression is abroad that reduction of rates to move this year's grain crop on the E.R. and B.C. would be a matter of negotiation between the government and the C.P.R.

"It is absolutely positive that the Crow's Nest freight rates should apply to the Edmonton, Dunvegan and British Columbia line, as well as to any other in the west," declared Mr. Jones. "I know that the conditions made by the provincial board of trade who recently met in Edmonton, to the Dominion railway commission, took it simply for granted that the E.R. & B.C. would benefit from the Crow rates just as the other grade lines. It certainly would be unfair to suggest anything else."

Free Insulin

New Government Policy to be Administered in Alberta

Free insulin supplies will be provided by the Alberta department of health in cases where the patients are not able to otherwise secure them. Hon. George Howland, minister of health, announced this as a new government policy to be administered through that department. The minister's attention to the matter was invited a short time ago by the editor of the Hanne Herald, who reported a number of cases in need of treatment but unable to meet the cost. It has now been decided to provide insulin for all such cases making application, and supplies will be sent out from the health department in Edmonton. Each application will be required and dealt with on its merits and necessary investigation as to medical diagnosis and financial circumstances will be made before issuing the supply. Alberta will in this way be adopting a similar course to that already taken by the province of Ontario.

Canada Interested in Radio
Saskatchewan—Sends Second Ontario in Number of Licenses

Canada spent \$5,511,799 on radio sets and parts in 1934. Public interest in radio broadcasting, and the consequent demand for apparatus, has created a new government department to be administered through that department. The minister's attention to the matter was invited a short time ago by the editor of the Hanne Herald, who reported a number of cases in need of treatment but unable to meet the cost. It has now been decided to provide insulin for all such cases making application, and supplies will be sent out from the health department in Edmonton. Each application will be required and dealt with on its merits and necessary investigation as to medical diagnosis and financial circumstances will be made before issuing the supply. Alberta will in this way be adopting a similar course to that already taken by the province of Ontario.

Venice May Lose Isolation
Automobile Road Will Connect Island With Rest of Italy

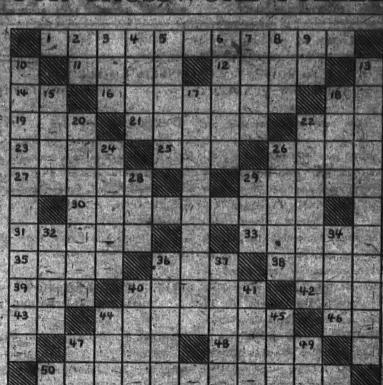

Loss of the isolation which the city of Venice, as an island, has enjoyed for centuries is threatened by the arrangements which have been completed for the construction of an automobile road connecting Venice with the rest of Italy. It is planned to join this road to the Padua-Milan road. The importance of this project arises from the fact that hitherto the city of Venice has never been joined by road to the rest of Italy, the only communication being by boat or by train crossing by means of a pontoon bridge.

Has Remarkable Brain
American Now Visiting in London Gives Astonishing Exhibitions

His brains in one are said to be possessed by Mr. Harry Kane, an American now visiting in London. Simultaneously he will read a newspaper, write the headlines upside down and backwards, in a blackboard, at the same time spelling the words the right way; answer continuously to his audience; answer questions giving the exact populations and industries of the largest towns of Great Britain, Canada and the United States; write backwards and upside down columns of figures which total 712,548,297, a figure previously agreed upon by the audience.

Each Day One Should Eat
Some fruit, either raw or cooked. Some bulky vegetable, such as lettuce, spinach, carrots or cabbage. Some healthy food, such as prunes, oranges, juice or a bran cereal. All the milk and water one desires, but at least four glasses of water must be taken each day to flush the kidneys.

In Mourning For
Sir William Peterson

Ship Will Display Broad Ribbon Mark For Six Months

Montreal has, for the first time, seen a ship in mourning. It was the Hio Durand, of the Peterson Line. As she steamed up the St. Lawrence, the now famous "corrugated ship" was conspicuous for a broad blue band painted all about the hull and deck, just below the top deck. This ribbon mark formerly was white, and it will remain blue for six months as a mark of respect to the memory of the late Sir William Peterson, head of the line, who died suddenly in Ottawa last week while on a visit in connection with the proposed ship subsidy plan.

Captain H. Rodden, who gave evidence before the ocean route committee in the House of Commons in regard to the "corrugated ship" experiment, is in command. He reported his record continued to live up to her record for speed on a 60 per cent consumption of fuel.

Ancient Human Culture
Interesting Discoveries Are Made By the Asiatic Expedition

Extensive evidence of the human culture in Mongolia, 15,000 or more years ago has been unearthed by the third Asiatic Expedition of the American Museum of Natural History, according to a cable from the leader, Roy Chapman Andrews, received by The Asia Magazine. Among the other results reported are the discovery of 40 dinosaur eggs, ten million years old, dinosaur skeletons and skulls, the pre-mongol human skeletons, remains of ancient animals and a large collection of stone weapons and utensils of the prehistoric dwellers of the Asian plateau.

Has Remarkable Brain
American Now Visiting in London Gives Astonishing Exhibitions

His brains in one are said to be possessed by Mr. Harry Kane, an American now visiting in London. Simultaneously he will read a newspaper, write the headlines upside down and backwards, in a blackboard, at the same time spelling the words the right way; answer continuously to his audience; answer questions giving the exact populations and industries of the largest towns of Great Britain, Canada and the United States; write backwards and upside down columns of figures which total 712,548,297, a figure previously agreed upon by the audience.

Each Day One Should Eat
Some fruit, either raw or cooked. Some bulky vegetable, such as lettuce, spinach, carrots or cabbage. Some healthy food, such as prunes, oranges, juice or a bran cereal. All the milk and water one desires, but at least four glasses of water must be taken each day to flush the kidneys.

Slavery Still Practiced
League of Nations Recommends Universal Abolition of System

Slavery is openly practiced in several Asiatic Mohammedan states, particularly in the Arabian peninsula. In the kingdom of the Hedjaz, where many slaves are girls who come from the Pers. The League of Nations, says a report by the slavery commission of the League of Nations published at Geneva.

The commission recommends universal abolition of the legal status of slavery, and recommends the abolition of the right to freedom without payment of money. It suggests the establishment of a concentration point to which freed slaves may be sent pending their return to the country of their origin and also recommends the extension of the right to the purpose slave dealers. The League commission suggests the prohibition of compulsory labor except for public works, for which there must be adequate pay.

Metals Can Be Made Thin

New Process Makes Them Transparent As Glass Says Berlin Doctor

Dr. Karl Mueller, of the physical research bureau, Berlin, claims to have discovered a process whereby it is possible to reduce metal foil to a thickness of one-thirtieth part of a centimeter, while retaining its elasticity. The process, as explained by Dr. Mueller, can be applied to all kinds of metal, including gold, rendering them transparent. The discovery is hailed there as a great benefit to the telephone, radio and musical instrument industries. The foils produced by the new process are reported to be as transparent as glass when by suitable, easily permitting a study of the atomic structure of precious metals.

Buried For Seventeen Centuries
The body of Saint Christina the Virgin, buried seventeen centuries ago in the "Catacombs" of Rome, has been brought to New York. The body will be deposited in the Roman Catholic Cathedral at Cleveland. It was presented to Bishop Joseph Schrembs by the pope in recognition of the generous offering made through the labors of his sister for the erection of the "House of Calcutta" built by the Pontifical Commission on Sacred Archaeology.

THE MAIL ORDER FLOOD

Three tons of mail order catalogues of Haman. This is the quantity of catalogues from one mail order house alone that were unloaded here a few days ago for distribution from the Haman postoffice. All within a twenty-mile radius of Haman.

The entire country is under a deluge of artistically illustrated, well-printed books of 500 pages each, advertising the wares of one of Canada's greatest mail order concerns, and lavishing even the most remote prairie settler to send his money away to Winnipeg for whatever he may require to eat or wear.

No home is too luxurious for this unsavory of the mail order business; enter; no cottage is so humble that this printed salesman will pass it by. It goes into the home of the business man who talks loud and long about the evils of "sending away" for his particular line of wares, but who fails to practice what he preaches, when he requires some of the other fellow's goods for his own consumption; it enters the home of the most lowly laborer. Rich and poor, business man and farmer, are all "prospects" when the mail order catalogue goes out.

Three tons of catalogues? Yes, six thousand pounds of printed salesmen for this postoffice. Figure it out yourself, and you will see that this one shipment equals the combined weight of thirty-five good husky salesmen of the human variety.

A few quick passes of the pencil show us that there are exactly 2400 catalogues, weighing 2½ pounds each, in this one batch. "One salesman" (and one of proven producing ability), will be at work in every one of 2400 homes in this district during the next six months. He will be constantly on the job, eager to display his goods, and ever ready to solicit an order for the mail order house. Two thousand four hundred salesmen are now at work in the Haman district, selling goods for Winnipeg mail order house! And a Regina concern has several thousand more such salesmen right here in our camp. Besides these, there are the lesser fry among the mail order houses, soliciting "business" by the catalogue method.

And the cost? Well, the cost is staggering. The value of the local shipments, dumped off at the local postoffice within the past two weeks will run well over \$5000. We remember that there are four of these big general catalogues each year, two from each firm, with four new season books of lesser size. A total cost estimated conservatively at \$11,600.

And the mail order house considers this money well spent. No concern would squander such a sum without the prospect of far returns. And the re-appearance of the catalogues, season after season, proves that the printed salesman "brings home the bacon."

All of this leads us to wonder why the retailers of the cities and towns do not use more of the same kind of salesmanship which has proved so profitable to the Eaton and Simpson companies. The business man served by a local newspaper has a greater opportunity of placing his claims before the community than the mail order house away in Winnipeg or Regina. Every week, year in and year out, the Haman retailer has an opportunity, through this newspaper, to talk to more than three thousand prospective purchasers right at his very door. And the same thing applies in greater or lesser degree, to every town in which a paper is printed.

The cost of such publicity is infinitely less to the retailer than it is to the mail order house, and he has the advantage of being able to send his printed salesman into the home every week, whereas the catalogue enters but four times a year. Through his newspaper, his message goes into the hands of "live" prospects only, for few people subscribe who do not read their paper. And in the case of a weekly message, the merchant can vary his salesmanship to suit the season.

There is no argument against judicious use of newspaper advertising by the retail merchant. There is no excuse for the apathetic attitude adopted by so many business men in regard to printed salesmanship. And unless the mail order houses are fought with their own fire, retail merchants will soon be as weak and prosperous as Jewish peddlers selling patent fly swats to blonde Balmores.—The Haman Herald, August 26.

THE FASCINATION
OF JOURNALISM

Journalism is a work which is fascinating. Some receive high rewards but to most the payment lies in the joy of the work. It is as a prominent craftsman has said: "A person who has once been engaged in newspaper work finds every other job about as interesting as shooting crabs with nothing up."

THE SALT HAS
LOST ITS SAVOR

The secret of the sudden appearance of the newest Alberta weekly newspaper is solved.

Apparently without visible means of support (it carried no advertising) The Western News has proved a doughty supporter of the Alberta government.

It seems, however, that the printing office from which The News emanates secured \$60,000 printing orders from the government in the past few months.

With this information to hand the salt loses some of its savor.—Ex.

JUDGED BY ITS NEWSPAPER

Most people look at a newspaper as the business of a single individual. If it thrives, that is the owner's or editor's business.

As a matter of fact, the success or failure of a newspaper is a matter of grave concern to an entire town.

Newspapers are the best advertisement a town has in the outside world. Other towns judge a place by the kind of newspaper it has. If it does not thrive, outsiders are inclined to look on the town as undesirable to live in, and go on to other places.

If some of us appreciated more fully the value of our newspapers, we could make great efforts to see that they get the news and advertising, and so become successful. Modern society cannot get along without newspapers any more than it can without schools and churches.—Ellesburg Record.

LIQUOR AT DANCES

As long as liquor is kept in the home, so long will it show up in the possession of youngsters at dances and social affairs. The youngster knows it is wrong and unlawful for him to take liquor to a dance, but he reasons that it is no more unlawful for him to do that than it is for his father to patronize bootleggers or blind pigs. He argues that he is no more a lawbreaker than his "old man" and the latter in a show down has not a leg to stand on. When liquor is gotten out of the house in Canadian communities it will not show up so plentiful in the possession of schoolboys at dances, and parties. Responsibility for this may as well be placed right where it belongs—in the home. There is the place to hunt for the explanation of the mystery as to how high school boys get their booze.—Fertile Free Press.

Mr. and Mrs. L. L. Morgan and some Pincher Creek friends left here on Tuesday morning on a motor trip over the Banff-Windermere trail. They will likely return the early part of next week.

A FURTHER STATEMENT BY THE PRESIDENT OF THE CROWS' NEST PASS LOCAL OF THE A.T.A.

I think that the ratepayers of Blairmore are entitled to at least a few facts in connection with the second dismissal of their teaching staff. As they are not getting them from the source whence they should come, it is incumbent upon me as President of this local to state them.

The people are fully aware of the fact that on the 27th day of June the Board gave 30 days' notice to each teacher on the staff. Sometime in July they were advised by the Department of Education that these notices did not comply with the conditions of the contract with the teachers. On the 28th day of July, the Board sent out a registered letter to each member of the staff advising him or her of another meeting to be held on August 7th, to terminate his or her agreement with the Board.

A clause in the contract compels the Board to give two clear days' notice of a meeting to terminate agreement. This meeting was to give the teachers the opportunity to hear the Board's reason for desiring to terminate the agreement.

Some of the staff wrote individually to the Board requesting that the meeting be delayed four or five days in order to enable them to be present. These teachers being near to the completion of their summer school course and to the examinations consequent to that course, found it impossible to comply with the Board's request that they present themselves in Blairmore on August 7th. Others of the staff, being on their vacation at places remote from quick transportation facilities, found it most inconvenient to get here. It may have been that some from economic causes found themselves unable to spend that extra money, especially as they were facing uncertain conditions for the ensuing term.

Some of the staff under these conditions, did the next best thing. They invested Mr. K. P. Stewart with full power of attorney, to act as plenipotentiary on their behalf.

I was present at the meeting. The Board gave me as reason for my dismissal and that of my staff, that I refused to meet the Board. I objected, stating that my staff and I were all present at their meeting called for June 16th. We met them but they refused us a hearing. They insisted on hearing us individually. We wished to be heard collectively through our agent.

One member of the Board intimated as a further reason for our dismissal that our attitude to the Board was not respectful. We will leave him to establish before some other tribunal that our treatment of them was lacking in courtesy. This member further stated that the opening remarks of my last statement to the press were lies. I am beginning to wonder why he is not refuting them. The press is not a monopoly of ours. He can use it, too. A lie is easily refuted. My statements stand and I welcome the battle. I detest dealing in personalities, but this has been thrust upon me.

Following upon this, I again—most respectfully this time, my seal on a previous occasion having hurt susceptibility—asked if the Board would discuss the whole situation with an Alliance representative, or at least hear what he had to say. This request was refused. I then asked the Board to receive Mr. Stewart as attorney for the individual teachers. They again refused. In other words, they failed to hear these teachers.

I then left the meeting. I was met by Mr. Stewart to whom I explained the Board's attitude. Mr. Stewart departed the following Monday as he found he could not get a hearing.

On August the 18th I received my second thirty days' notice. No reason was given for the Board's action. Similar notices have been received at various dates in August by members of my staff.

I understand that the new staff, now being hired, is not yet complete, and that the Board is delaying the

This advertisement has been placed by the Alberta Liquor Control Board or the Government of the Province of Alberta.

opening of school until their complete staff is found. The ratepayers are entitled to know that the old staff is here ready to go on duty, to serve them on September 1st. Further, they are the staff that is in office right now.

Who is preventing us from functioning? Who is debarring the ratepayers from sending their children to school on September 1st?

D. M. J. CONWAY.

ST. LUKE'S CHURCH

Rev. H. L. Nobbs will conduct services on Sunday, August 30th, as follows: Holy Communion at 9 a.m. Evensong 7 p.m.

Immediately after the evening service a meeting of parishioners will be held to discuss the question of the hours of services during the Fall and Winter.

BLAIRMORE KIDDIES TO GO TO CALGARY

According to Pete Egan in the Albertan, arrangements have been made by President Fred Lepper, of the Juvenile Baseball League, and Ed. Batram, secretary of the A.A.B.A., for the championship play-off games between the Blairmore Juveniles and the St. Mary's, winners of the Calgary district.

The Blairmore Kiddies will go to Calgary on Thursday night and play a game there on Friday evening and one on Saturday. It will be a two-out-of-three-game series, and if necessary the double-header will be played on Saturday.

COLEMAN SEEMS PEEVED

(Coleman Journal)

A meeting of the carnival committee was held on Wednesday evening in the council chambers. It was reported on good authority that the Blairmore authorities had arranged to have a midway show appear in Blairmore for the week commencing August 31 and including the two days selected by the Coleman carnival committee. This is quite in keeping with the attitude assumed by some of the citizens of Blairmore who seem to lie in wait like ravenous vultures to pounce down upon any community undertaking for the benefit of the Crows' Nest Pass which is not staged in Blairmore. Notwithstanding the adverse effect this dastardly arrangement will have upon the Coleman carnival it was unanimously decided to carry on with the preparations for September 4 and 5.

HILLCREST HOTEL BEING REMODELLED

As a result of the recent visit of Mr. C. P. Hill, the owner, the Union Hotel at Hillcrest, is to immediately undergo a thorough overhauling.

We understand that chief among the changes to be effected will be, the present office is to be converted into a beer parlor, the present beer parlor to become the office and sitting room, with main entrance fronting on the south.

The lavatory, etc., which formerly occupied place in the basement, is being set on the main floor, between the office, beer parlor and hallway. Rooms throughout are to be thoroughly decorated and renovated, and when the work is completed, the Union will be in the list of first-class hostels.

Mr. Hrihorow, the manager and lessee, also intends having cement sidewalks laid along the east and south sides of the hotel.

HILLCREST HAPPENINGS

Miss Lucy Carter has left town to accept a position in Spokane.

J. Joseph's big sale is attracting many people this week. Joe offers bargains galore.

James Gorton, junior, left on Thursday's train, having accepted a position in Toronto.

Harry Stobbs and Bobby Henderson are away on a motor tour, taking in the Banff-Windermere route.

Alf Taylor left town on Sunday in his "bug" for points unknown. No doubt we shall hear from him shortly.

A very pleasant evening was spent on Monday at the Pythian hall, when a whist drive was staged by the Pythian Sisters. Fourteen tables were occupied. The following were prize winners: gents' first, P. Hagerty; ladies' first, Miss Mae Henderson; gents' booby, J. Calderwood; ladies' booby, Miss Gladys Howcroft. After the drive a splendid supper was served and the rest of the evening was devoted to dancing, music being supplied by Miss Ruth Hood, Ed. Royle (saxophone) and Joseph Royle (violin).

Coleman, accompanied by their brass band and pipe band, paid a visit to Hillcrest to engage in a friendly game of football on Saturday evening. Hillcrest gained the verdict by having the long end of a four-to-one score. The strains of music brought all the people out, the intervals at the game being utilized by a dance on the ground to the strains of the pipes, roughly being the shining light in that direction. Altogether, the town was pretty lively and everyone enjoyed themselves. The return game is to be played at Coleman on September the 5th, when a great game and a record crowd is expected. Hillcrest boys are due to play at Lethbridge the coming Saturday, when they will meet the pick of that city.

DUCK SHOOTING STARTS SEPTEMBER 15

The season for shooting ducks, geese and Hungarian partridge opens on September 15th this year and closes on December 14th.

The bag limit for ducks is 30 per day and 200 for the season.

For geese, 15 per day.
For Hungarian partridge, 15 per day and 75 for the season.

Prairie chicken may be shot during October and the bag limit is 19 a day and 30 for the season.

Muskrat may be shot or trapped between March 1st and May 15th. Sunday shooting is prohibited.

There are plenty of ducks on the sloughs this year, according to reports, and there should be abundant sport. A number of Canada geese are around, too, having nested in the district.

A SCAB

The following is Webster's definition of a scab:

"A dirty, puffy fellow. A workman who works for lower wages than, or under conditions contrary to those prescribed by a trade union. Also, one who takes the place of a workman on a strike, a rat—used approbriately by trade-unionists."

Mr. Webster's definition of a scab is: "One who will engage to fill the position of another who is out to fight for a just right."

Stop! Look! Listen!

Within the short space of less than the life of a generation the automobile has worked a complete revolution in modes of transportation and in the lives of people. But owing to the recklessness of so many drivers of cars it has become a veritable nightmare to locomotive engineers. To a greater extent than anything else it is the cause of nervous breakdowns among trainmen.

This is the age of speed, and thousands of motorists delight in tearing along roads and over railway crossings at top speed although there is no need for haste. They ignore the fact that there is more real pleasure to be derived from leisurely driving, and that a moment's stop at a level railway crossing to allow an approaching train to pass is not lost time. They scorn the risk they themselves run, and every year hundreds pay the full penalty of their folly, while other hundreds have cause to remember in pain and a permanently crippled condition the terrible price they are paying on account of their heedlessness.

But there is another side to the picture, and a locomotive engineer of the Pennsylvania Railroad has written an article, appearing in The Outlook, in which he describes just what the reckless motorist, who tries to "beat" an express train to the crossing, costs the engineer in nerve stability, and the consequent danger to every passenger on the train. "This article is so ghastly and timely that it is worthy of repetition. The locomotive engineer in question writes:

"Come and take a ride with me in the cab of my engine. I am going to drive her at the rate of sixty miles an hour, which means that sometimes she will go considerably faster than that. There will be thrills. Perhaps I should tell you in advance of some of the things you will see and feel. "There are grade crossings, you know. The crossings are not dangerous, but the automobile creates a danger at them. I do not recall many trips when I did not have from one to three close calls. At practically every grade crossing without guard gates some driver goes over after the whistle has been sounded. And where there are guard gates, they sometimes smash them down and go over. Just the same. Perhaps you will understand the nature of the thrills better if I give you one or two specific instances.

"On the fifteenth of last January I took my run out at 5:41 a.m. An hour later, I was driving along at reduced speed, probably forty miles an hour. I whistled long and loud for a particularly bad crossing. When within about 150 feet of the crossing I saw lights bobbing around on the planks. That indicated an automobile—no more. My trainman, as I afterwards learned, was looking directly at the car. It did not occur to him at first that the driver would try to get across. Then he saw him 'give her the gas.' Those bobbing lights, however, had enabled me to divine the driver's intention. I snapped the brake valve to full emergency position.

"We were three hundred feet past the crossing when the train stopped, but the emergency application of the brakes had stayed the engine the instant that it took for the automobile to get over those rails. The fireman, in a frantic voice asked me, 'Did he get over?' I answered, 'Yes, he did.' The fireman got up from his seat, came over to the gangway at the right side and taking as though that driver might be getting every word said, 'Old fellow, no one but God saved you.'"

"From that instant for the space of the trip there was an engineer in the cab whose nerves were not fit for his job. Little clicks and knocks were so magnified as to make it seem that the engine was falling to pieces. While crossing a foreign railroad at grade, and having the signal to proceed, one of the foreign railroad's engines started to blow off steam. I started involuntarily from my seat, and it was only with difficulty that I forced myself to remain in the cab.

"Another time before that, after I had sounded the whistle for the crossing, two automobiles shot across, one right after the other, at about forty-five miles an hour. I was thinking how much better judgment those fellows would have displayed if they had stopped and waited only one minute for my train to pass when the fireman shouted to me, 'There's another!' Like a flash, a large coupe went across at about sixty miles an hour. In that coupe was a little girl about five years old on her knees looking out of the rear window. A woman, doubtless her mother, was at the wheel. To me, I looked as though the woman was not thinking of her child, but only of not being outdone by those other two cars—or by that train, either."

"This engineer concludes by asking: 'Were you ever held up at the point of a gun?' I never was, possibly because I never had anything that the other fellow wanted, but I have heard men describe the situation. 'The hole in the gun-barrel looked as big as a wash tub, the bullets the size of cannon balls. But that feeling, when contrasted with that of the engineer when he is about to strike an automobile, is about as placid as the waters of the Amazon compared with Niagara Falls.'"

"Possibly it is too much to expect a motorist, who risks his own life and the lives of his companions in a car, to give the slightest consideration to the locomotive engineer, or to the hundreds of passengers on the train whose safety depends upon the steady nerves of the engineer. But what grim tragedies would be prevented and suffering avoided if people would only realize that there is nothing 'small' in being a reckless fool."

Operated With Crude Oil

Doctor in Alaska Used Jack-Knife and General Anesthetic. A small operation was performed recently at Bettis River on Controller Ray, 60 miles east of Cordova, Alaska, by Dr. W. W. Council, of Cordova, with a jack-knife and denatured alcohol. When Dr. Council arrived at Bettis River from a hunting trip he was called to handle the case. He had no implements. With the crude outfit he performed the operation with success. No anesthetic was administered. The alcohol was used to sterilize the knife.

Pain In The Muscles, Stiffness In Joints.

Quickly Subdued By Nervine

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more-or-less chronic condition there is nothing to compare with Nervine. It is because Nervine penetrates so deeply, because it has about five times the strength of an ordinary oil preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nervine works wonders. A trial proves this. Get a 50-cent bottle from your dealer today.

Building Great Cathedral

A further stage in the building of Liverpool Cathedral has just been entered upon, in the ceremony of "breaking ground" for the foundations of the central spire and tower, and of the transepts. The completed Liverpool Cathedral, which was begun in 1907, will be the second largest in the world. It is the only Anglican Cathedral in these islands to be built from the foundations since the reformation.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach, thus preventing the deadliest summer complaint. They are an absolute safe medicine, being guaranteed to contain only purest and most reliable or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are an ideal medicine for the mother to keep on hand. Write to The Dr. Williams' Medicine Co., Brockville, Ont.

Tariff Experiment Fails

Irish Free State Will Likely Drop Mott of Duties. The Dublin correspondent of the London Westminster Gazette says the tariff experiment started by the Irish Free State about two years ago has failed so signally that it is likely most of the duties will be dropped. The idea was, of course, to protect and foster Irish manufacturers, but, the correspondent writes, foreign goods have not been excluded, while prices naturally have risen and the consumers paid the penalty.

He cites the motor car trade among those especially affected, saying the purchase of cars has diminished considerably, while all goods except tobacco and household furniture, have suffered, and several Irish firms have been unable to pay their bills.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing rheumatism. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Bear Took Photograph

A camera, set up at one of the national parks in United States, had just set up a tripod to take some pictures of mountain scenery. A bear suddenly appeared and the amateur photographer started running down the mountain side. When the pistol was developed, it was found that the bear in some way had tripped the shutter of the camera and had taken a good picture of the man running down the mountain side.

Stop the Cough.—Coughing is caused by irritation of the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Thomas' Electric Oil will allay the cough, soothe the inflamed throat, and you will be satisfied.

Medicine Hat Gets Convention. Medicine Hat secured the 1926 convention of the Western Canada Irrigation Association when the matter was debated at the convention in session in Kelowna, B.C.

Minard's Liniment For Dandruff

DR. HAMILTON'S PILLS

HEADACHE, RHEUMATISM, CONSTIPATION, INDIGESTION, KIDNEY LIVER, BOWELS.

A Freak Lightning Bolt

Bolt Doing Damage in Truro, N.S. News From Charlottetown, N.S. From a cloudless sky a bolt of lightning, accompanied by a deafening thunder, descended upon Walker Street in Truro, N.S., shattered a tree, entered a house, via the telephone wires, buried a telephone box, and left by an open door, in which a young child was standing.

The child was unhurt, but a pedestrian on Walker Street, was stunned and several others were shocked, while telegraph instruments, a quarter of a mile away, were put temporarily out of commission. There was but one bolt of lightning and one clap of thunder and through it all the sun shone brilliantly and no cloud was to be seen. A similar occurrence was recorded there three years ago.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and safely, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any poisonous property.

Eagles Travel By Aeroplanes

Two Birds Develop Unusually Appetite On Unaccustomed Flight. A pair of golden eagles, presented to the Zoological Garden at Scheer, by King Ferdinand, of Rumania, were shipped to their destination in aeroplanes. This unique mode of transporting the two avian lords of the air was employed by order of the royal decree, which asked his gift to arrive as a surprise. The only effect this unaccustomed flight seemed to have had on the two birds was to give them a ravenous appetite.

Minard's Liniment For Burns

Gas for street lighting was first used in Baltimore.

SUNDAY SCHOOL LESSON

AUGUST 30

PAUL AND THE PHILIPPIAN JAILOR

Golden Text: Believe on the Lord Jesus, and thou shalt be saved. Acts 16:31. Lesson: Acts 16:16-40. Devotional Reading: Psalm 41:1-5, 11-13.

The Text Explained and Illumined. This extraordinary maid of Philippi, verses 16:18—Some time after coming to Philippi, as Paul and his companions went to the place of prayer where he was wont to preach, he was answered by a fortune-telling maid who kept crying out after them: "Hear ye, these men are servants of the Most High God, who proclaim unto you the way of salvation."

In the margin of the Revised Version the alternative translation for "a speaking maid" given is "a maid having a spirit," a "Pythia." The great dragon at Delphi slain by Apollo was called a Pythia, and according to Philippians, and "a Pythia" was the object of many vows and prayers to the gods. He further says that the slave girl's mind became distorted and diseased by her belief in her supernatural possession, but it became all the more acute in certain perceptions and intuitions, and she became at once alive to the moral dimension which the intense faith of the strangers gave them.

Paul in the name of Jesus Christ bade the spirit leave her. And she was freed. "Paul's power over her was not necessarily miraculous; it was that of a good man over a sensitive nature. This slave girl became the first Christian convert in Philippi and led up to another conversion equally strange."

Canada May Benefit

Englishman Left Fortune For Charity In United Kingdom. Nearly 200,000 pounds awaiting for charity in England bequeathed by Col. Barlow, a magnificent supporter, in his lifetime, of Balesy.

Col. Barlow made many visits to Canada in connection with rifle shooting. Canada may benefit under his will, as he left the residuary estate to be applied, within 21 years of his decease, for such charitable purposes within the United Kingdom, Ireland, India, or any British state, colony, or dependency, as the trustees in their wisdom think fit.

The will adds that Col. Barlow desires that no money left by him shall be used for sectarian or political party purposes.

ASPIRIN

Say "Bayer" - Insist!

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians for 25 years.

Safe Bayer

Accept only a Bayer package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark. Registered in Canada) of Bayer-Manufacture of Monopolized of Solerit.

New Homestead Record. Setting the highest monthly record in nearly three years, 109 homesteads and 12 soldier grants—a total of 121 quarter sections—were filed upon at the Dominion land office at Edmonton in the month of July.

The more man has, the more he wants, with the possible exception of the father of twins.

Cuticura Should Be In Every Home

Daily use of Cuticura Soap keeps the pores active and the skin clear and healthy, while the Ointment removes all skin ailments. Cuticura Ointment is a delicately medicated antiseptic powder of pleasing fragrance.

Small bottles 25c. Large bottles 50c. Cuticura Soap 25c. Cuticura Ointment 25c. Cuticura Ointment 50c. Cuticura Soap 50c.

Sally Ann CLEANSER

demonstration Sale!

A ONE CENT Demonstration Sale of Sally Ann—the new, revolutionary "new" Cleanser. Helps to lighten your household tasks; shows the way to simple, safe cleanliness.

3 CANS 25c.—the usual price is 2 cans 25c. Just present the attached coupon and 1c to any grocer with the regular price of two cans of Sally Ann, and he will give you three cans for the price of two, plus 1c.

Cleanses woodwork, painted walls, tiles, linoleum, porcelain, etc.

MADE IN CANADA

This 1c Demonstration Sale positively ends Saturday, September 25th, 6 p.m.

SMP ENAMELED TEA KETTLE

Note the flattened top of this kettle. No waste space above the water level. A heavy fast boiler, decidedly best in appearance.

Hinged lid at side of kettle for speedy filling under tap or by dipper being tilted. It cannot fall off or get lost.

Handle, extra large, right, shaped to fit the hand and always cool, being right you have perfect control at all times.

This kettle is made in 18-gauge steel and the diamond shaped wire, also in nickel plated copper mesh. The same heavy and our trade mark on each kettle.

Well known, generous sized, perfectly covered, elegant. Tip of spout well above water line to prevent overflowing or spilling.

NOW CONCEDED ELECTION WILL BE HELD THIS FALL

Ottawa.—Although official notice has been announced and may not be for a fortnight, there is no doubt now of a general election this fall. It will not come early and may be as late as November, but it is coming.

All the preparatory signs were in evidence, following the cabinet caucus of the last week and the character of personal interviews. Organizers and members have been here and have left in a hurry, retaining offices as being appointed, acquaintances here and there and other activities clearly indicate the course in view. Mr. Liberal elected a small minority of the cabinet but a large number of private members have sought another session, but it is not clear to the supporters of the ministry how this process could possibly be of political benefit, whereas it might be fraught with danger. To all intents and purposes the campaign is now on in a preliminary way. Very probably the official "armistice" will not be complied with until after the general election returns, September 4, but today's symptoms and the tone of all the gossip exclude uncertainty as to what is coming. Dissolution will be attended by cabinet reconstruction. Fielding, Cope and Bureau anyway are going out, perhaps there may be two others. Selection of their successors depends on several things and for the moment the outcome is obscure.

After cabinet consultations the decision was left to Premier King. There is no doubt, from what has happened meanwhile, that he has decided to appeal to the people. Official action, however, may not be taken till next month.

Elections will not be before October 20 and conceivably somewhat later.

Production in Canada

Canada Produced Over \$3,000,000,000 in Commodities in 1923

Ottawa, Ont.—Canada produced a net value of \$3,051,000,000 in commodities in 1923, according to a report just issued by the Dominion Bureau of Statistics as estimated on the basis of statistics compiled by its various branches.

This value was produced by approximately two-thirds of the population, and the persons in the Dominion, those engaged in the various kinds of "production," defined according to the usual acceptance of the term as including agriculture, forestry, fisheries, trapping, mining and manufacturing, etc.

The value of \$3,051,000,000 in question, which covers 1923, represents an increase of 2.8 per cent. over the previous year.

Ontario contributed 29.7 of the Canadian total. Quebec held second place, while Saskatchewan, Alberta, British Columbia and Manitoba followed in the order given.

Determining Sanity of Scott

Case Appears to be Puzzling Specialist Who is Investigating

Chicago.—Russell J. Scott is described as an "indiscreet" and possibly a paranoiac subject to delusions of persecution, by Dr. Stubbins, superintendent of the Chester Hospital for the Criminal Insane. "I don't know whether he is sane or insane," Dr. Stubbins was quoted in a special dispatch to the Chicago Tribune from Chester, where the convicted murderer of a Chicago drug clerk recently was taken after a jury had decided that he had become insane. "It is too early to tell yet."

Scott has begun to take up writing. "I am trying to analyze my case," he said. "I suppose in one way I had all this coming to me. No one ever took such things as I had—home and wife and children and friends and business opportunities and throw them away more recklessly."

Fire At French Expedition

Grenoble, France.—Aeroplane, automobile, electric appliances and tools, all valued at more than ten million francs (nominally \$500,000), were completely destroyed by fire in the transporting and touring building of the national expedition. A lot of fighting set fire to the building.

Will Tour Dominions

London.—Commissioner David C. Lamb, of the Salvation Army, in a few weeks will leave London on an eight months tour of Canada, Australia and South Africa. The object of the commissioner's trip is to investigate the immigration possibilities of these three dominions.

W. N. U. 1923

Return Russian Warships

French Government Decides to Hand Ships Over to Soviets

Paris.—The French Government has decided to hand over to the Russian warships now at Brest in the Soviet hands. The decision was announced by Andre-Marie Franchet, deputy minister of the navy, who said that the French government recognizes the Soviet claim to the ships and will hand them over to the Soviet government.

The Soviet government has offered to return to the French government the four million French Russian bondholders ten per cent. of his holdings in new Soviet bonds and safety paper. In bonds of new Franco-Russian companies, which will be formed to exploit mines, forests, factories and oil fields in Russia. However, it is understood that the whole debt has been reduced from gold to paper francs.

The Russian fleet at Brest, formerly held by General Vranich was defeated by the Soviets in the Crimea, consists of two dreadnoughts, two battle cruisers, nine destroyers, four submarines, one school ship and some auxiliaries.

Explorers Ordered To Leave Mongolia

Government Alleges Leader of Expedition Has Violated Agreement

Urga, Mongolia.—The Mongolian Government has ordered the third Asiatic expedition of the American Museum of Natural History, under the leadership of Roy Andrews, to cease its exploration and scientific work and to leave Mongolian territory, alleging that Mr. Andrews has violated the terms of his agreement with Mongolian scientific organizations.

The Mongolian Government further alleges that besides carrying out his scientific work in the domain of paleontology, geology and zoology, Mr. Andrews expedition has also engaged in topographical work and has employed a number of suspicious in a military sense—persons.

Mr. Andrews also is accused of carrying on political propaganda, stirring up the Mongolians against the Red Bolsheviks.

Shipping Flowers To England

Canadian Blooms Are a Surprise to English People

Ottawa, Ont.—Reports indicate that thousands of cut flower blooms are now being shipped to England from Canada. The Canadian people have never to have a more flourishing bloom than the peony grown in the Old Country.

It is a very large and many styled question and it should be viewed solely with respect to the welfare of the Dominion as a whole, he said.

He added that personally he was not in a position to express any opinion at all.

"The latest information is that you will remain in Canada," it was suggested.

"There has been no discussion at all with respect to the continuation of my work here," said the president, "and it is naturally a matter that is in the hands of the proper persons."

Asked who the latter were, Sir Henry said he supposed that in the last analysis they were the people of Canada.

To Check Rum Running

Conference Between Officials of Dominion and U.S. Government

Washington.—Canadian representatives to attend the conference between officials of the Dominion and United States governments to draw up regulations to give effect to the recent treaty to suppress smuggling across the border, arrived here today.

The chief purpose so far as the United States is concerned, is to tighten the border restrictions against rum, smuggling, and narcotic smuggling, and for this reason Assistant Secretary of the Treasury Andrews, head of the prohibition enforcement, will be prominent in making the regulations.

Low Water in Lake Ontario
Rochester, N.Y.—Concern has been caused here by the fact that Lake Ontario is smaller and shallower than it was in the last quarter century. Government experts have declared that the Chicago drainage canal, completed last year, which drains water from Lake Michigan through the city of Chicago and into the Mississippi Valley, for sanitary purposes, is responsible.

Chicago Editor Dead

Chicago.—Victor F. Lawson, editor and publisher of the Chicago Daily News, is dead. Mr. Lawson had suffered heart attacks in recent years from overwork, and an attack with acute dilation, proved fatal.

Worried Over Polish German Trade War

Danzig Business Men Do Not Profit by Exemptions

Danzig.—The trade war between Poland and Germany now in progress may have one important result in the opinion of many Danzig business men, if it will mean the defection of Upper Silesia coal to the countries bordering upon the Baltic Sea, which were formerly a part of the Russian Empire. Such a defection would, in their opinion, prove an advantage to four interested groups; the Poles would have a promising new market in exchange for the German, Danzig would gain much new business as the shipping port; the Baltic countries could obtain the coal more cheaply than they can now buy English coal; Germany could dispose of her Ruhr coal without the interference of Upper Silesian coal competition.

The people of Danzig are the innocent victims of another phase of the rate war between Germany and Poland. Goods of purely Danzig origin may go to Germany unimpeded and in return foodstuffs and other articles intended purely for Danzig are permitted to come into the Free City exempt.

As a matter of fact there are practically no goods of purely Danzig origin, consequently exempting that class of merchandise affords little comfort to the Danzig business man.

NORTH COUNTRY RAILWAY NEEDS TO BE CONSIDERED

Sarcastic Article Appears in Weekly Paper in London

London.—A writer in Truth, the weekly paper, which recently commented upon the paucity of Canada's contribution to the British navy, says: "As The Toronto Globe recently was very much displeased with me for questioning the pretensions of the Canadian contribution to the sea power of the empire, I think it right to tell the world that one-half of the active Canadian navy has now been put to sea to cruise in company with the Canadian navy in the United States, and in other words, the destroyer Patricia has left her moorings at Esquimaux and will not return until the beginning of October."

"What the other half of the active Canadian navy is doing I have no information at the present moment, but I believe she is assuring the safety of Halifax."

Lost Their One Laundryman

Hawaiian Citizens Greatly Regretted Arrest of Only Chinaman

Honolulu.—The laundry business in Honolulu, which is a very important industry, has been paralyzed, and trade calling a protest meeting, all on account, deprived of clean shirts, collars, etc., have been on the verge of a riot. The laundry business is a very important industry, and the arrest of the only Chinaman laundryman, Chow Wing, has caused a great deal of trouble.

"One hotel had no linen and every one in the village seemed to have a dress or a shirt in the hands of Wing Chow," Manning said. "To hear the grief and protests, you would have thought the person stolen of the town had just expired."

England Plans New Air Service

Passengers Would Be Landed At Airport on Thames

London.—A new development in air service between the continent and London is being planned for the near future. Experiments are being carried out with a view to the establishment of an airport on the River Thames at Hammonds, just below Putney. French amphibious planes will alight and set down passengers on a specially constructed landing stage. The authorities stipulate that such landings shall occur before nine o'clock in the morning so that the question of river traffic may be avoided.

Vege Board To Meet

Saskatoon.—A meeting of the Saskatchewan fair board will be held in Regina in September, at a date not yet decided.

Curtain Exploration For This Year

Washington.—The MacMillan Arctic expedition has abandoned hope of carrying out its full exploration programme over the Polar Sea this year.

Curtain of the expedition's activities was forced by adverse weather, which has locked the Northland in ice and fog, well ahead of the usual winter season.

FUNDING OF THE BELGIAN DEBT TO UNITED STATES

Brussels, Belgium.—Great reserve is shown by the Belgian press in commenting on the news from Washington of the agreement reached there for funding the Belgian debt to the United States.

Vladimir Stela emphasizes the emotional character of the proposed arrangement and recalls the manner in which the American Senate refused to honor the signature of President Wilson to the peace treaty.

The paper questions whether Belgium is to be congratulated on the terms reached at Washington, even if the conditions as outlined in the dispatches received here are confirmed.

London.—Official circles here were silent today regarding the settlement reached in Washington, for funding Belgium's debt to the United States.

The impression was given, however, that the favorable nature of the terms was to be expected, and that unless close study revealed new angles at present unknown, the British Government would not depart from its previous policy of refraining from pressing Belgium in connection with her financial obligations to this country.

Criticizes Canada's Navy

Sarcastic Article Appears in Weekly Paper in London

London.—A writer in Truth, the weekly paper, which recently commented upon the paucity of Canada's contribution to the British navy, says: "As The Toronto Globe recently was very much displeased with me for questioning the pretensions of the Canadian contribution to the sea power of the empire, I think it right to tell the world that one-half of the active Canadian navy has now been put to sea to cruise in company with the Canadian navy in the United States, and in other words, the destroyer Patricia has left her moorings at Esquimaux and will not return until the beginning of October."

Ready To Argue Claims

British Columbia Has Completed New Case in Freight Rates

Victoria, B.C.—British Columbia has completed preparation of its new freight rates case, based on recent parliamentary legislation. It has been announced by Premier John Oliver, after G. G. McLeod, government counsel, had telegraphed to the railway board, urging an immediate ruling on its immediate argument on this province's claims for lower western grain rates.

"We are ready now to argue our claims any time," Mr. Oliver stated. "On account of the rate legislation passed by parliament at its recent session, we will hold the railway board actually has no alternative but to give us the same rates on westbound grain as those prevailing on eastbound grain. We assert we are entitled to Crow's Nest rates and want them to apply on the movement of this year's crop."

Edmonton.—A saving of about five cents per bushel to Peace River farmers and shippers will be effected if the railway commission gives an order making the Crow's Nest freight rates in grain applicable to the B. C. and C. and Central Canada Railways. Request to the board for such an order has been made by A. Chard, government freight supervisor, and it is expected reduced rates will be effected in the time of the movement of this year's crop.

Predicts War Between States and Japan

British Author Says Conflict Will Start March 3, 1931

London.—Japan will declare war on America on March 3, 1931, by completely blocking the Panama Canal. Japan will then capture the Philippines after which the American Pacific fleet will be destroyed. Japan will then launch from ships will proceed to bomb and destroy San Francisco, Oakland, and Los Angeles.

After a tremendous loss of life, money and territory, the American fleet will win the war by annihilating the Japanese grand fleet in mid-Pacific in one of the greatest battles in naval history.

This prediction of conflict between America and Japan is made in a book, entitled "The Great Pacific War," by Hector Tyscott, noted naval architect and strategist. The book, just published here, is causing great interest in military and naval circles.

Propose United Veterans in One Organization

Toronto.—As the result of a province-wide conference of war veterans here, the veterans of Ontario achieved the most important forward step yet made in the direction of uniting all ex-service men under the banner of one great Canadian organization.

The gathering, made up of 150 delegates, the veterans of Ontario achieved the most important forward step yet made in the direction of uniting all ex-service men under the banner of one great Canadian organization.

Leaves Cares Of Office

Officialdom of Britain Off an Autumn Holiday

London.—If a rival power should open war on England tomorrow, the measures of defence would have to be organized by junior officials. The British Government has gone through shooting, motor and general holiday.

King George and Queen Mary are visiting Princess Mary at Goldborough Hall, Yorkshire. Prime Minister Baldwin has left for his country house, Hatfield. Lord Bessborough is also in Scotland, where he is also Lord Bessborough, Field Marshal Earl Haig and other chiefs of the fighting services. The home secretary, Sir William Johnston Hicks, is also in Scotland, where he is also Lord Bessborough, Field Marshal Earl Haig and other chiefs of the fighting services.

The gathering, made up of 150 delegates, the veterans of Ontario achieved the most important forward step yet made in the direction of uniting all ex-service men under the banner of one great Canadian organization.

TAKE STEPS TO GUARD AGAINST "RED MENACE"

London.—The Daily Mail says that the home secretary, Sir William Johnston Hicks, has decided in favor of the rapid recruitment of special constabulary as one of the steps necessary to safeguard the public against the unrest fostered by Communism.

The Mail asserts that Socialist and Communist extremists are constantly preparing for the struggle they wish to precipitate, either when the time comes to give effect to the recommendation of the coal commission, or earlier, should trouble develop in the railways.

The paper declares that John Wheatley, who was health minister in Ramsay MacDonald's Government, is founding at Glasgow "Workers' Defence Corps," which he hopes will achieve membership of 10,000 men ready to defend against attacks on their standard of living, and that he is urging every labor organization in the country to obtain pledges from its members in this class war, which, says the Mail, exists only in the minds of the Communists.

It is recalled that during the recent coal trouble the creation of special constables was reported and later denied.

Saskatchewan Lignite

Brigetting of Saskatchewan Lignite Technically Successful

Regina, Sask.—Cablefiling and brigetting tests on Saskatchewan lignite, which have recently been carried out in Germany, have proven technically successful, said W. C. Worcester, professor of electrical engineering at the University of Saskatchewan, who was in charge of the tests and reported to the government upon his return to the city.

The tests have been carried out during the past two summers at two of the largest brigetting plants in Germany. There were Thyssen & Company, at Huelshorn-Ruhr and the Lurgi Company at Frankfurt. Fifty-two tons of lignite from the mines of the Western Dominion collieries at Taylorton were used in the tests.

Wheat Board Surplus

Saskatchewan's Share To Be Paid At Once

Ottawa.—Confirmation of the arrangement for the immediate payment of Saskatchewan's share of the wheat board surplus was made here by Hon. J. R. Booth, secretary of the board. The sum in question, totalling approximately \$248,000, will be forwarded to the Saskatchewan Government in the course of the next two or three days, and represents 16 per cent. of the proportion of the surplus due to that province, of those who had sent wheat to the board for sale and distribution, at the time the Canada wheat board gave up office in 1921. Payments of the respective shares due to Alberta, Ontario and Quebec have already been made, it is stated.

Tourist Traffic Heavy

Over Two Hundred Cars Go Into Banff Daily

Edmonton.—Two hundred and twenty motor cars per day have been going into Banff this summer. The provincial highways branch has a statement from the superintendent of the Rocky Mountain Park showing that from June 1 to August 1 this traffic does were collected at the east entrance to the park on the Calgary-Banff highway from 2,240 cars, 20,000 and 6,800 eastbound. This is a total of 15,240 for sixty-nine days, and the average is still keeping up.

New Grain Inspector

Calgary.—George H. H. Dominion Government grain inspector in Calgary, has been offered and accepted the appointment of chairman of the grain appeal board authorized by the board of grain commissioners under the new Grain Act.

Mr. Hill will commence his new duties on September 1. He will be located in Calgary.

May Adopt Blue Sky Laws

Victoria, B.C.—If the inter-provincial conference in Winnipeg this week succeeds in clarifying federal and provincial jurisdiction, the Government of British Columbia will consider the advisability of adopting new "blue sky" legislation on its books to protect investors from unscrupulous promoters.

Attorney-General A. M. Manson announced today.

A Day of Ice in London is Estimated

to have cost the County Council twenty-five £4,000.

Phone 230 — Blaimore, Alberta

All the Blaimore "canned" staff of teachers, with exception of Miss Galfay, are back to town, namely: Mr. Conway, Mr. Thorsen, Mr. Bond, Misses Fulton, Douglas, Rae, Keith, Nicol, Gibau, Palmer, Marquis and Williams. The new staff will likely arrive this week end, so that at school opening time, Blaimore with a thirteen-room school will be doubly blessed with a staff of twenty-five teachers, all being paid by the ratepayers of the district at a time when the ratepayers can least afford it.

One morning four-year-old Beas had pancakes and syrup for breakfast. After she had eaten the cakes there was some syrup left on her plate and she said: "Mamma, please give me a spoon, my fork leaks."

William Ryan, vice-president of District 18 of the U.M.W. of A., has tendered his resignation. Mr. Ryan has definitely decided to step down from his position with the miners' organization as soon as an election is held to name a successor.

Watch Those First Ten Years

MOST of our habits, good or bad, are formed before we're ten years old. Help your child for the health-habit. Give him plenty of

STAR BREAD

Have a slice ready when he comes running in from school. Soon he will come to recognize the difference between this rich-flavored, highly nutritious loaf and other foods less valuable.

Items of Local and General Interest

At the regular meeting of the council on Monday night a batch of bills were passed for payment, and Mr. Alex. Morency was appointed fire chief.

Wanted, a new dictionary. All the big words in the old one were used up last week by the Coleman Journal in a desperate effort to knock Blaimore.

The Fernie Golf Club, which was expected down on Sunday to meet the Blaimore Golf Club in a match game, have postponed their visit until September.

Bert Pryde, Coleman's soccer star met with an accident in McGillivray mine on Wednesday last, in which he sustained several broken ribs and bruises about his legs.

Mr. and Mrs. Harold Scott, of Medicine Hat, formerly of Calgary, left for Rochester Tuesday morning where Mrs. Scott will undergo medical treatment—Calgary Abertian.

Special interest to the ladies of the Blaimore district—On Saturday, September 5th, the representative of the Win Wear and Eleanor Wear coats and dresses, will show a large range of these beautiful goods, all to your order, at the F. M. Thompson Co. Don't forget the date, Sept. 5th.

Our local golf star, Mr. D. G. Mackenzie, put up an excellent showing at the Western Canada meet at Calgary and returned with no less than two trophies. Mr. Mackenzie was suffering from a crippled hand, otherwise might have walked away with the whole west.

One or two soreheads in Coleman, who have been expressing regrets at having spent a dollar or two at the Blaimore Elks' carnival, might have their money refunded upon application to the proper source. The Elks are not inclined to tolerate anything but a proper community spirit.

Fernie Miners' baseball team defeated Lethbridge on Sunday last by the narrow margin of 7 to 6. Rain interfered somewhat with the game and was responsible for a rather slim attendance of rooters. In a return game played at Lethbridge yesterday, Fernie was again victorious, this time by a score of 6 to 2.

Calgary Riverdale and Blaimore Tuxis baseball teams are playing off the final provincial midget championship games in Blaimore this week, starting yesterday. The best two out of three games will decide, Blaimore winning the first game by a score of 7 to 6.

The \$40,000 pulp and paper mill and electric power plant of the Newfoundland Pulp & Paper Co., at Curling, Newfoundland, was set in motion officially on Monday last. A thousand guests were present from points in Great Britain, Canada and the United States. The new mill is the largest in the world and ensures employment for about eight thousand men.

Greenhill Temple, Pythias Sisters, will hold a whist drive in the Lodge Hall on September 16th, with the usual six good prizes. This will be the first of a series of eight whist drives to be held on the third Wednesday of each month and the highest aggregate score, lady and gent, will receive a beautiful prize. Don't fail to take in all eight drives and boost your score. Everybody welcome.

Editing a newspaper in these days is not a very exciting adventure, and the mortality rate of editors is not discouragingly high. Things were not always so. Especially in the smaller towns, shooting affrays in which the rival political factions and dare-devil editors took part furnished part of the regular weekly news. Nowadays an editor carries a note book and pencil when answering calls. In the old days he grabbed a six shooter.

Mr. R. G. Green, of Lethbridge, is in town for a few days.

The regular monthly meeting of the Blaimore School Board will be held on Friday (tomorrow) night.

J. W. McDonald, K.C., of Macleod, is attending the annual session of the Canadian Bar Association at Winnipeg.

Mr. and Mrs. James Harland and baby, and Mr. and Mrs. Donald McLennan left here a few days ago on a motor trip to the U.S. and B.C. Pacific coast.

Magistrate Barker will retire on September 1st and a new appointment will likely be made for the Lethbridge judicial division. Barker hopes to return to England.

The Calgary senior baseball league has donated \$50 towards the expenses of the Riverdale Midgets to Blaimore, and the provincial association has guaranteed the balance.

The law offices of Messrs. Gillis & Mackenzie, and the residence until lately occupied by Mr. Frank Wright, are undergoing complete interior renovation at the hands of G. K. Sirrett.

Mr. G. L. Stevens and son returned last evening from a month's holiday spent at the B.C. coast. Mr. Stevens, who was obliged to make the trip owing to ill health, has been much benefited by the holiday.

At a recent sitting of the District Court, held in Blaimore, the assessment appeal of Mr. Joseph Little from the decision of the Court of Revision at Bellevue, was allowed to the extent that surface rights of his land near Bellevue were reduced from \$15 per acre to \$5.00.

Mr. Eastland, of Winnipeg, special claims agent for the C.P.R., spent a few days in this district last week, making settlement with those who sustained injuries or inconveniences through the recent train wreck near Cowley. Mr. Eastland returned to Winnipeg by Sunday night's train.

Anyone wishing to ride in the Lethbridge Elks' Carnival prize Chevrolet car may borrow our ticket. We could also let them ride on tickets for the prize cars being put up at Coleman and Fernie. Judging by the views expressed by the Coleman Journal last week, one might expect to find a knock in the Coleman camp.

The two cottages being erected at the corner of Dearborn Street and Fifth Avenue by Contractor E. J. Fozzi, are well under way. We understand that the larger of the two, at the corner, is to be occupied by Mr. E. McDonald. It is a neat cottage and commands a splendid location.

Edward Rector, a Chicago patent lawyer, leaves \$2,000 to education. Important and interesting, he establishes annual scholarships for every high school in the state of Indiana. That's a fine bequest by a first-class American citizen. Work while you live and leave your money when you die to help the public school system, and you need not worry about the future of a nation.

Business men and manufacturers of British Columbia are trying to inaugurate a "Buy at Home" campaign to stimulate business, and business certainly needs a stimulant. With about \$30,000,000 going out of the province for boots and another \$5,000,000 or \$6,000,000 being spent on racehorses gambling, it will require a life-size stimulant to put business where it belongs. Just as soon as business interests find out that the booze and business do not mix we will give more attention to business and less money to booze and gambling, and business conditions will right themselves. A beer laden boat makes no progress. —Trail News.

Eat onions and the world will make a beaten path away from your door.

Canada will have the world's largest pulp and paper plant, at Three Rivers, Quebec, when the International Paper Company complete their plans.

A novel live bait container to be suspended from a fisherman's belt has water tight compartments in which cigars, matches, and other articles can be carried.

Some of our new teachers will be sadly disappointed when they find that they have engaged to work for a good deal less than Blaimore School District could afford to pay.

The sale of home cooking, held in the Lodge Hall on Wednesday afternoon by the ladies of St. Luke's Anglican church, proved a great success, as was also the whist drive and dance held in the evening.

"The dress of today," says the Boston Globe, "consists of two armholes bounded on the west by nothing whatever, on the east by the same, on the south by hardly anything, and on the north by less than that."

Blaimore Trap-shooting Club will hold its first shoot, on the Blaimore Athletic Grounds immediately behind the Greenhill hotel, on Wednesday afternoon next, September 2nd. All those interested in this sport, whether already members of the club or not, are cordially invited to be present next Wednesday.

FOR SALE—Five-Roomed, Residence, situated on Edmonstone Street, Blaimore. Full basement. Two lots. Large outhouses at rear. Will sell outright or rent furnished. Apply to The Enterprise. [a20]

In Loving Memory

of
 JANET
 Aged 5 Years and 3 Months
 Darling Child of
 MR. AND MRS. SETH MARTIN
 Who Died August 27th, 1923.
 "Her memory lingers with us yet."
 Inserted by her Father and Mother.

NOTICE OF MEETING

The constituency conference of the Women's Institute for the constituencies of Pincher Creek and Rocky Mountain will be held at Cowley on Tuesday, September 15th. We hope to see a good number of delegates and members present.
 The speaker of the day will be Mrs. Charles Lynch-Staunton, director.
 MRS. W. D. McDOWELL,
 Publicity Convener.

A CUT GLASS COLLECTION
 is the addition of nearly every housekeeper. Use it not to be blamed, for it is certainly beautiful and rich looking.

DON'T WAIT FOR OTHERS
 to give you the start of a collection. Buy one or more of our beautiful pieces and your friends may take the hint and give you cut glass hereafter instead of those equally expensive gimcracks for which you do not care.
